Allowable Subject Matter

Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance: It is well known in the art that desulfurized hydrocarbon is useful for production of reformat by reforming methods and apparatus. Louder et al., US Pat. No. 3,898,153 teaches such a method and apparatus for desulfurizing hydrocarbon wherein a desulfurized hydrocarbon is fed to a reformer. Louder further teaches that it is undesirable to flow undesulfurized hydrocarbon in a hydrogen generator or reformer because such processes would damage or impair the catalyst in the reformer. Therefore Louder et al., fails to teach or in combination with other references a method or apparatus capable of producing desulfurized hydrocarbon feed wherein undesulfurized reformat produced in a small hydrogen generator is fed with undesulfurized hydrocarbon feed to a hydrogen desulfurizer which applicant claims is his invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
